## SUMMARY

Full Stack Web Developer with design practice and understanding. Effective at combining creativity and problem-solving to develop applications. Great at building relationships, and adapting to any situation. Is always learning and challenging himself.

## TECHNICAL SKILLS

**Technical Languages:** React.js, CSS, JavaScript, HTML, Node.js(CRUD), NoSQL, Firebase

**Applications:** Figma, Adobe Photoshop and Illustrator, Postman

## PROJECTS

### Sleepy Angler

**Code:** [github.com/seanmena/sleepyangler](https://github.com/seanmena/sleepyangler) / **Live:** [sleepyangler.com](https://sleepyangler.com)

- Fly fish guide website. Admin may add to a gallery, make blog posts, and handle contact submissions. Users may browse content and submit a contact form.
- I first designed it in Figma, then built the full-stack application matching the design. The app has an auth system, and stores and pulls all data in a database.
- I used Figma, Photoshop, Illustrator, React, Javascript, CSS, and Firebase.

### Book Club

**Code:** [github.com/seanmena/Books](https://github.com/seanmena/Books) / **Live:** [book-club-9650b.firebaseio.com](https://book-club-9650b.firebaseio.com)

- The user creates an account, searches for books, and adds them to their library.
- I first designed it in Figma, then built a full-stack application matching the design.
- I used Figma, Photoshop, Illustrator, React.js, Javascript, CSS, Firebase, and Google Books API.

### News Homepage

**Code:** [github.com/seanmena/LandingPage](https://github.com/seanmena/LandingPage) / **Live:** [seanmena.github.io/LandingPage](https://seanmena.github.io/LandingPage)

- This is a frontend mentor challenge, I built the app from images of the design.
- I created the page and animations, but no functionality.
- I used React, Javascript, and CSS.

## EXPERIENCE

### Visual Merchandiser, Nordstrom

**Daily:** Designed floor layouts, organized projects as a team while following through independently, and managed strict deadlines.

**Skills:** Teamwork, daily check-ins, layout understanding, knowing when to ask for help.

## EDUCATION

**Full-Stack Developer Bootcamp:** The University of Utah, Salt Lake City, UT

A 24-week intensive program focused on gaining technical programming skills in HTML, CSS, Javascript jQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS.
