TECHNICAL SKILLS

Front-end: React.js, HTML5, CSS, JavaScript (ES6), Bootstrap, and Bulma.

Back-end: Node.js, MySQL, MongoDB, and Firebase.

Design: Figma, Adobe Photoshop, and Illustrator.

EDUCATION

Full-Stack Developer Bootcamp: The University of Utah, Salt Lake City, UT | Jan 2022

A 24-week intensive boot camp preparing me for a development career, focusing on the MERN stack, GitHub workflow, and a breakdown of the web and how it works.

PROJECTS

Sleepy Angler Fly Fish Guide | React, CSS, HTML, Firebase, Figma, Photoshop, Illustrator

Source Code: github.com/seanmena/sleepyangler / **Live:** sleepyangler.com

- Created a fly fish website for a fishing guide. The Admin may add and delete blog posts, add and delete images to their gallery, and view/delete submitted contact forms.
- Designed the prototype in Figma and built the UI with React and CSS. Used Firebase for the Database, and authentication system.
- Now the client has a website to track their booking requests and showcase their work. They can create blog posts to engage their customers and keep their relationships fresh for future trips.

Book Club Book Tracker | React, CSS, HTML, Google Books API, Figma, Illustrator, Firebase

Code: github.com/seanmena/Books / **Live:** book-club-9650b.firebaseio.com

- Created a book-tracking application. Users create or log in to an account. Each user has a "My Books", and a "Search" tab. Users may search for their favorite books, and save them to their "My Books" page.
- Designed in Figma and used React and CSS to create the UI. Used Axios to fetch the data from the Google Books API on the "Search" page of the website. Firebase was used for the database and auth system.
- Users can track all the books they've read or books they want to read without needing to keep a physical list.

WORK EXPERIENCE

Visual Merchandiser, Nordstrom / October 2020 - October 2021

- Designed floor layout with customer flow and product pushing in mind.
- Used guidance from lead merchandisers to have optimum teamwork for projects.
- The store benefited from a strong visual team which resulted in more sales.

Lead Teller, Wells Fargo / July 2017 - October 2020

- Solved customer concerns and worked quickly with extreme attention to detail.
- Used resources provided to be knowledgeable and confident in policy and procedures.
- Developed a strong team of resourceful tellers so customers felt well taken care of.

Barista, Blue Copper Coffee / October 2021-Present

- Thrive in a fast-paced environment retaining strong attention to detail.
- Used online resources to better my latte art and dialing skills.
- Customers left satisfied with attractive and delicious drinks in a timely manner.
